MEDICAL FEE DISPUTE RESOLUTION FINDINGS AND DECISION

GENERAL INFORMATION

Requestor Name and Address

SHANNON MEDICAL CENTER
3255 W PIONEER PKWY
PANTEGO TX 76013-4620

Respondent Name

NEW HAMPSHIRE INSURANCE COMPANY

Carrier's Austin Representative Box

Box Number 19

MFDR Tracking Number

M4-12-0562-01

MFDR Date Received

October 20, 2011

REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "We have found in this audit they have not paid what we determine is the correct allowable per the APC allowable per the new fee schedule that started 3/01/2008 for the following account. Per the new fee schedule this account qualifies for an Outlier payment . . ."

Amount in Dispute: \$2,369.80

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "The audit department reviewed the charges again and maintained that our initial payment of \$5,866.60 was made per the DWC Guidelines and is the correct amount of reimbursement."

Response Submitted by: Chartis, 4100 Alpha Road, Suite 700, Dallas, Texas 75244

SUMMARY OF FINDINGS

Date(s) of Service	Disputed Services	Amount In Dispute	Amount Due
July 27, 2011 to July 28, 2011	Outpatient Hospital Services	\$2,369.80	\$1,239.94

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403, titled *Hospital Facility Fee Guideline – Outpatient*, sets out the reimbursement guidelines for facility services provided in an outpatient acute care hospital.
3. 28 Texas Administrative Code §134.203, titled *Medical Fee Guideline for Professional Services*, sets out the reimbursement guidelines for professional medical services.
4. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - 97 – The benefit for this service is included in the payment/allowance for another service/procedure that has

already been adjudicated.

- 16 – Claim/service lacks information which is needed for adjudication.
- W1 – Workers Compensation State Fee Schedule Adjustment.
- 96 – Non-covered charge(s).
- 59 – Processed based on multiple or concurrent procedure rules.
- 94 – Processed in Excess of charges.
- 1 – This is a packaged service based on Medicare guidelines as defined in the CMS-Publication 60A, which states: Packaged Revenue Codes The following revenue codes when billed under OPPS without HCPCS codes are packaged services for which no separate payment is made. However, the cost of these services is included in the transitional outpatient payment (TOP) and outlier calculations. The revenue codes for packaged services are: 0250, 0251, 0252, 0254, 0255, 0257, 0258, 0259, 0260, 0262, 0263, 0264, 0269, 0270, 0271, 0272, 0275, 0276, 0278, 0279, 0280, 0289, 0370, 0371, 0372, 0379, 0390, 0399, 0560, 0569, 0621, 0622, 0624, 0630, 0631, 0632, 0633, 0637, 0700, 0709, 0710, 0719, 0720, 0721, 0762, 0810, 0819 and 0942. Any other revenue codes that are billable on a hospital outpatient claim must contain a HCPCS code in order to assure payment under OPPS. Return to provider (RTP), claims which contain revenue codes that require a HCPCS code when no HCPCS code is shown on the line. No separate payment allowed. (XE27)
- 2 – Please provide the appropriate CPT code, HCPCS code, or state-specific code for this service and resubmit for payment. (E480)
- 3 – No Reduction Available. (VRNA)
- 4 – Recommendation of payment has been based on this procedure code, 72131, which best describes services rendered. (Z652)
- 5 – The charge for this procedure exceeds the fee schedule allowance. (Z710)
- 6 – Recommendation of payment has been based on this procedure code, 74177, which best describes services rendered. (Z652)
- 7 – Recommendation of payment has been based on this procedure code, 71260, which best describes services rendered. (Z652)
- 8 – Recommendation of payment has been based on this procedure code, 72125, which best describes services rendered. (Z652)
- 9 – Recommendation of payment has been based on this procedure code, 72128, which best describes services rendered. (Z652)
- A – Recommendation of payment has been based on this procedure code, 70450, which best describes services rendered. (Z652)
- B – Recommendation of payment has been based on this procedure code, 99285, which best describes services rendered. (Z652)
- C – Recommendation of payment has been based on this procedure code, 96375, which best describes services rendered. (Z652)
- D – Recommendation of payment has been based on this procedure code, 80053, which best describes services rendered. (Z652)
- E – Recommendation of payment has been based on this procedure code, 73030, which best describes services rendered. (Z652)
- F – Recommendation of payment has been based on this procedure code, 73080, which best describes services rendered. (Z652)
- G – Recommendation of payment has been based on this procedure code, 72170, which best describes services rendered. (Z652)
- H – Recommendation of payment has been based on this procedure code, 96365, which best describes services rendered. (Z652)
- I – Recommendation of payment has been based on this procedure code, 71010, which best describes services rendered. (Z652)
- J – Recommendation of payment has been based on this procedure code, 85025, which best describes services rendered. (Z652)
- K – Recommendation of payment has been based on this procedure code, 96361, which best describes services rendered. (Z652)
- L – Recommendation of payment has been based on this procedure code, 85730, which best describes services rendered. (Z652)
- M – Recommendation of payment has been based on this procedure code, 86250, which best describes services rendered. (Z652)
- N – Procedure code not separately payable under Medicare and or Fee Schedule guidelines. (U634)
- O – Recommendation of payment has been based on this procedure code, J2270, which best describes services rendered. (Z652)
- P – Recommendation of payment has been based on this procedure code, 85810, which best describes

- services rendered. (Z652)
- Q – Recommendation of payment has been based on this procedure code, 90701, which best describes services rendered. (Z652)
- R – Recommendation of payment has been based on this procedure code, 86900, which best describes services rendered. (Z652)
- S – Recommendation of payment has been based on this procedure code, 86901, which best describes services rendered. (Z652)
- T – This multiple procedure was reduced 50 percent according to fee schedule or FAIR Health Benchmark Database. (L401)
- U – Recommendation of payment has been based on this procedure code, 12005, which best describes services rendered. (Z652)
- V – The recommended allowance on this line is based on TX fee schedule reimbursement guidelines which allows greater than the providers billed charges. (ZOBC)
- W – Recommendation of payment has been based on this procedure code, J7030, which best describes services rendered. (Z652)
- X – Recommendation of payment has been based on this procedure code, J7050, which best describes services rendered. (Z652)
- Y – Recommendation of payment has been based on this procedure code, 23855, which best describes services rendered. (Z652)
- Z – Venipuncture charges are included in the global lab reimbursement. (X668)
- a – Recommendation of payment has been based on this procedure code, 36415, which best describes services rendered. (Z652)
- b – Recommendation of payment has been based on this procedure code, J2405, which best describes services rendered. (Z652)
- c – Recommendation of payment has been based on this procedure code, J3480, which best describes services rendered. (Z652)
- d – Recommendation of payment has been based on this procedure code, 80059, which best describes services rendered. (Z652)

Issues

1. Are the disputed services subject to a contractual agreement between the parties to this dispute?
2. What is the applicable rule for determining reimbursement for the disputed services?
3. What is the recommended payment amount for the services in dispute?
4. Is the requestor entitled to reimbursement?

Findings

1. Review of the submitted documentation finds no information to support that the disputed services are subject to a contractual agreement between the parties to this dispute.
2. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables was not requested.
3. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
 - Procedure code 36415 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services

for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$3.00. 125% of this amount is \$3.75. The recommended payment is \$3.75.

- Procedure code 80053 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$14.87. 125% of this amount is \$18.59. The recommended payment is \$18.59.
- Procedure code 80053 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$14.87. 125% of this amount is \$18.59. The recommended payment is \$18.59.
- Procedure code 80069 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$12.22. 125% of this amount is \$15.28. The recommended payment is \$15.28.
- Procedure code 86850 has a status indicator of X, which denotes ancillary services paid under OPPS with separate APC payment. This service is classified under APC 0345, which, per OPPS Addendum A, has a payment rate of \$14.93. This amount multiplied by 60% yields an unadjusted labor-related amount of \$8.96. This amount multiplied by the annual wage index for this facility of 0.8441 yields an adjusted labor-related amount of \$7.56. The non-labor related portion is 40% of the APC rate or \$5.97. The sum of the labor and non-labor related amounts is \$13.53. The cost of this service does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total APC payment for this service is \$13.53. This amount multiplied by 200% yields a MAR of \$27.06.
- Procedure code 86900 has a status indicator of X, which denotes ancillary services paid under OPPS with separate APC payment. This service is classified under APC 0409, which, per OPPS Addendum A, has a payment rate of \$7.78. This amount multiplied by 60% yields an unadjusted labor-related amount of \$4.67. This amount multiplied by the annual wage index for this facility of 0.8441 yields an adjusted labor-related amount of \$3.94. The non-labor related portion is 40% of the APC rate or \$3.11. The sum of the labor and non-labor related amounts is \$7.05. The cost of this service does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total APC payment for this service is \$7.05. This amount multiplied by 200% yields a MAR of \$14.10.
- Procedure code 86901 has a status indicator of X, which denotes ancillary services paid under OPPS with separate APC payment. This service is classified under APC 0409, which, per OPPS Addendum A, has a payment rate of \$7.78. This amount multiplied by 60% yields an unadjusted labor-related amount of \$4.67. This amount multiplied by the annual wage index for this facility of 0.8441 yields an adjusted labor-related amount of \$3.94. The non-labor related portion is 40% of the APC rate or \$3.11. The sum of the labor and non-labor related amounts is \$7.05. The cost of this service does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total APC payment for this service is \$7.05. This amount multiplied by 200% yields a MAR of \$14.10.
- Procedure code 85025 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$10.94. 125% of this amount is \$13.68. The recommended payment is \$13.68.

- Procedure code 85610 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$5.53. 125% of this amount is \$6.91. The recommended payment is \$6.91.
- Procedure code 85730 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$8.45. 125% of this amount is \$10.56. The recommended payment is \$10.56.
- Procedure code 72170 has a status indicator of X, which denotes ancillary services paid under OPPS with separate APC payment. This service is classified under APC 0260, which, per OPPS Addendum A, has a payment rate of \$45.04. This amount multiplied by 60% yields an unadjusted labor-related amount of \$27.02. This amount multiplied by the annual wage index for this facility of 0.8441 yields an adjusted labor-related amount of \$22.81. The non-labor related portion is 40% of the APC rate or \$18.02. The sum of the labor and non-labor related amounts is \$40.83. The cost of this service does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total APC payment for this service is \$40.83. This amount multiplied by 200% yields a MAR of \$81.66.
- Procedure code 73030 has a status indicator of X, which denotes ancillary services paid under OPPS with separate APC payment. This service is classified under APC 0260, which, per OPPS Addendum A, has a payment rate of \$45.04. This amount multiplied by 60% yields an unadjusted labor-related amount of \$27.02. This amount multiplied by the annual wage index for this facility of 0.8441 yields an adjusted labor-related amount of \$22.81. The non-labor related portion is 40% of the APC rate or \$18.02. The sum of the labor and non-labor related amounts is \$40.83. The cost of this service does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total APC payment for this service is \$40.83. This amount multiplied by 200% yields a MAR of \$81.66.
- Procedure code 73060 has a status indicator of X, which denotes ancillary services paid under OPPS with separate APC payment. This service is classified under APC 0260, which, per OPPS Addendum A, has a payment rate of \$45.04. This amount multiplied by 60% yields an unadjusted labor-related amount of \$27.02. This amount multiplied by the annual wage index for this facility of 0.8441 yields an adjusted labor-related amount of \$22.81. The non-labor related portion is 40% of the APC rate or \$18.02. The sum of the labor and non-labor related amounts is \$40.83. The cost of this service does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total APC payment for this service is \$40.83. This amount multiplied by 200% yields a MAR of \$81.66.
- Procedure code 71010 has a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC. This ancillary procedure code is packaged when submitted on the same date of service as the critical care E&M code 99291; however, as 99291 is not present, the criteria for composite payment are not met for this code. This service is paid separately and is not assigned to a composite APC. This procedure code is assigned status indicator X, which denotes ancillary services paid under OPPS with separate APC payment. This service is classified under APC 0260, which, per OPPS Addendum A, has a payment rate of \$45.04. This amount multiplied by 60% yields an unadjusted labor-related amount of \$27.02. This amount multiplied by the annual wage index for this facility of 0.8441 yields an adjusted labor-related amount of \$22.81. The non-labor related portion is 40% of the APC rate or \$18.02. The sum of the labor and non-labor related amounts is \$40.83. The cost of this service does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total APC payment for this service is \$40.83. This amount multiplied by 200% yields a MAR of \$81.66.
- Procedure codes 70450, 71260, 72125, 72128, 72131, and 74177 have a status indicator of Q3, which denotes codes that may be paid through a composite APC; payment is packaged into a single payment for specific combinations of service. A service that is assigned to a composite APC is a major component of a single episode of care. The hospital receives one payment through a composite APC for multiple major separately identifiable services. Payment for any combination of designated CT imaging procedures performed on the same date of service is packaged into a single payment. If a “without contrast” CT procedure is performed on the same date of service as a “with contrast” CT, APC 8006 is assigned rather than APC 8005. This service is classified under APC 8006, which, per OPPS Addendum A, has a payment rate of \$628.61. This amount multiplied by 60% yields an unadjusted labor-related amount of \$377.17. This

amount multiplied by the annual wage index for this facility of 0.8441 yields an adjusted labor-related amount of \$318.37. The non-labor related portion is 40% of the APC rate or \$251.44. The sum of the labor and non-labor related amounts is \$569.81. Per 42 Code of Federal Regulations §419.43(d) and Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if the total cost for a service exceeds 1.75 times the OPPS payment and also exceeds the annual fixed-dollar threshold of \$2,025, the outlier payment is 50% of the amount by which the cost exceeds 1.75 times the OPPS payment. If a claim includes a composite payment that pays for more than one otherwise separately paid service, the charges for all services included in the composite are summed up to one line. To determine outlier payments, a single cost for the composite APC is estimated from the summarized charges. Total packaged cost is allocated to the composite line-item in proportion to other separately paid services on the claim. Per the OPPS Facility-Specific Impacts file, CMS lists the cost-to-charge ratio for this provider as 0.219. This ratio multiplied by the summarized charges of \$14,844.00 yields a cost of \$3,250.84. The total cost of all packaged items is allocated proportionately across all separately paid OPPS services based on the percentage of the total APC payment. The APC payment for this composite service of \$569.81 divided by the sum of all APC payments is 25.37%. The sum of all packaged costs is \$1,278.53. The allocated portion of packaged costs is \$324.40. This amount added to the service cost yields a total cost for this composite line item of \$3,575.24. The cost of this service exceeds the annual fixed-dollar threshold of \$2,025. The amount by which the cost exceeds 1.75 times the OPPS payment is \$2,578.07. 50% of this amount is \$1,289.04. The total APC payment for this service, including outlier payment, is \$1,858.85. This amount multiplied by 200% yields a MAR of \$3,717.69.

- Procedure code 23655 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. The highest paying status T procedure is paid at 100%; all others are paid at 50%. This procedure is paid at 100%. This service is classified under APC 0045, which, per OPPS Addendum A, has a payment rate of \$1,071.10. This amount multiplied by 60% yields an unadjusted labor-related amount of \$642.66. This amount multiplied by the annual wage index for this facility of 0.8441 yields an adjusted labor-related amount of \$542.47. The non-labor related portion is 40% of the APC rate or \$428.44. The sum of the labor and non-labor related amounts is \$970.91. The cost of this service does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total APC payment for this service is \$970.91. This amount multiplied by 200% yields a MAR of \$1,941.82.
- Procedure code 12005 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. The highest paying status T procedure is paid at 100%; all others are paid at 50%. This procedure is paid at 50%. This service is classified under APC 0133, which, per OPPS Addendum A, has a payment rate of \$91.81. This amount multiplied by 60% yields an unadjusted labor-related amount of \$55.09. This amount multiplied by the annual wage index for this facility of 0.8441 yields an adjusted labor-related amount of \$46.50. The non-labor related portion is 40% of the APC rate or \$36.72. The sum of the labor and non-labor related amounts is \$83.22. The cost of this service does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total APC payment for this service, including multiple-procedure discount, is \$41.61. This amount multiplied by 200% yields a MAR of \$83.22.
- Procedure code 96361 has a status indicator of S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. This service is classified under APC 0436, which, per OPPS Addendum A, has a payment rate of \$26.35. This amount multiplied by 60% yields an unadjusted labor-related amount of \$15.81. This amount multiplied by the annual wage index for this facility of 0.8441 yields an adjusted labor-related amount of \$13.35. The non-labor related portion is 40% of the APC rate or \$10.54. The sum of the labor and non-labor related amounts is \$23.89. The cost of this service does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total APC payment for this service is \$23.89. This amount multiplied by 200% yields a MAR of \$47.78.
- Per Medicare policy, procedure code 96365 may not be reported with procedure code 23655 billed on the same claim unless a modifier is appended in order to differentiate between the services provided. Separate payment for the services billed may be justified if a modifier is used appropriately. The requestor billed the disputed service with an appropriate modifier. Separate payment is allowed. Procedure code 96365 has a status indicator of S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. This service is classified under APC 0439, which, per OPPS Addendum A, has a payment rate of \$128.44. This amount multiplied by 60% yields an unadjusted labor-related amount of \$77.06. This amount multiplied by the annual wage index for this facility of 0.8441 yields an adjusted labor-related amount of \$65.05. The non-labor related portion is 40% of the APC rate or \$51.38. The sum of the labor and non-labor related amounts is \$116.43. The cost of this service does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total APC payment for this service is \$116.43. This amount multiplied by 200% yields a MAR of \$232.86.

- Per Medicare policy, procedure code 96375 may not be reported with procedure code 23655 billed on the same claim. A modifier is allowed in order to differentiate between the services provided. Separate payment for the services billed may be justified if a modifier is used appropriately. The requestor billed the disputed service with an appropriate modifier. Separate payment is allowed. Procedure code 96375 has a status indicator of S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. This service is classified under APC 0437, which, per OPPS Addendum A, has a payment rate of \$36.88. This amount multiplied by 60% yields an unadjusted labor-related amount of \$22.13. This amount multiplied by the annual wage index for this facility of 0.8441 yields an adjusted labor-related amount of \$18.68. The non-labor related portion is 40% of the APC rate or \$14.75. The sum of the labor and non-labor related amounts is \$33.43. The cost of this service does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total APC payment for this service is \$33.43. This amount multiplied by 200% yields a MAR of \$66.86.
 - Procedure code 99285 has a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC. This procedure code may be assigned to composite APC code 8003, for level II extended assessment and management services; however, the criteria for composite payment are not met for this code. This service is paid separately and is not assigned to a composite APC. Per Medicare policy, procedure code 99285 may not be reported with procedure code 12005 performed on the same date of service unless a modifier is appended to differentiate between the services provided. Separate payment for the services billed may be justified if a modifier is used appropriately. The requestor billed the disputed service with an appropriate modifier. Review of the submitted medical documentation finds that modifier 25 is supported; therefore, separate payment is allowed. This procedure code is assigned status indicator V, which denotes a clinic or emergency department visit paid under OPPS with separate APC payment. This service is classified under APC 0616, which, per OPPS Addendum A, has a payment rate of \$329.54. This amount multiplied by 60% yields an unadjusted labor-related amount of \$197.72. This amount multiplied by the annual wage index for this facility of 0.8441 yields an adjusted labor-related amount of \$166.90. The non-labor related portion is 40% of the APC rate or \$131.82. The sum of the labor and non-labor related amounts is \$298.72. The cost of this service does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total APC payment for this service is \$298.72. This amount multiplied by 200% yields a MAR of \$597.44.
 - Procedure code 90701 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J2270 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J2270 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J2405 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J3480 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J7030 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J7050 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
4. The total allowable reimbursement for the services in dispute is \$7,156.93. This amount less the amount previously paid by the insurance carrier of \$5,916.99 leaves an amount due to the requestor of \$1,239.94. This amount is recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$1,239.94.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$1,239.94, plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this order.
